

**PREVENTION OF
BLOSSOM END ROT**

**PREVENTION OF
TIP BURN**

HI-Q Ca-B

HI-Q Ca-B is formulated to prevent and cure Calcium physiological disorders and Boron deficiencies.

HI-Q Ca-B helps support fruit quality and shelf life.

HI-Q Ca-B prevents Calcium physiological disorders such as Blossom End Rot on tomato and other fruit vegetable and Tip burn on leafy vegetables.

The benefits

- Supports calcium and boron nutrition
- Contributes to higher commercial yield
- Strong biostimulant action through high content in Plant Stimulating Peptides
- Supports photosynthetic activity
