Kiplant VS-04[®]

A Chitosan based Nematicide and biostimulant for control of nematodes, improved root development and suppression of plant pathogens including *phytophthora*.

KIPLANT VS04 is recommended on a wide range of crops and fruit trees including; Apples, Avocado, Citrus, Macadamia, Potatoes, and Tomatoes with the following additional benefits:

- ✓ Improved root development in nursery plants
- ✓ Early root development in new plantings in the fields
- ✓ Lignification and rebuilding of damaged root systems
- ✓ Improved immunity and defence against soil diseases
- ✓ Improved root biomass and stress tolerance
